A. The Project

Project: m351_mango **File:** m351_Mango Project Title.docx

Project Manager: David Young

Assistant Manager: Tommy Jones

B. The Client, the Project, Mango Solution Objective

B1) Note

Technology: MS SQL, ASP NET, MVC, JQUERY

SVN Link: <https://rw5vot.axshare.com>

A) Subproject m352a_Port:

https://dyh.ddns.net/svn/Project2Lab/M351_ManSVN/00Factory/01_m351a_port_Code

B) Subproject m351b_Proj:

https://dyh.ddns.net/svn/Project2Lab/M351_ManSVN/00Factory/02_m351b_proj_Coder

Project: 1/2s Live Mockup at:

B2) The Client

We, the Team of Mango Solution Canada Inc., is a bunch of software engineers, project managers, and corporate merger professional.

Our service is not just software coding and development. That being said, takes up 50% of our day to day service to our clients.

We provide our small, median size clients an End-To-End solution for their organization as a whole, which involve:

- Hiring / screening for oversea software developers.
- end t end software development, from selection of software, design, outsourcing, development to installation, and training of client's staff.
- Our Tax accountant also take care of Corporate merging, corporate restructuring, to provide local tax benefit, advantage, and take advantage of geo political advantage, from one country to another country

B3) The Project

This is our own internal management project.

Since our business model is one of a kind, we have been unable to find a suitable software to manage our everyday needs. So, decision was made to build a comprehensive tool to take care of all we need.

This project will be ongoing for a duration of one year. Which may be extended as it sees fits.

We will be a basic framework with all the necessary, basic corporate management site as details in the Section C Development Schedule.

As we grow, there will be additional need features, that will continue to be added. as we grow.

The Planed Development Tasks as per our Section C Schedules will be expanded or contracted as from time to time we will agree on,

File : m351b_Mango Project Title.html

Released On : 2020-10-07 / P. 1 of 4

in our Monthly Partnership Meeting.

We will be listening to any advices and comment from ALL PARTNERS, for any wish they have in the tools.

Mango Solution is also currently in negotiation to acquire another software development entity in USA,

In this project design process, please take into the consideration and allow for multiple website hosting on a single installation.

C. Development Schedule

The Project will be separated into 2 subprojects:

A) Subproject m352a_Port:

- To improve Mango Solution's current portal site (<http://www.mangosolution.ca/>),
